

Scatter plot showing the number of iterations (Y-axis, 1 to 7) versus the annealing phase (X-axis). The X-axis categories are: bef_ann, ann_75C_5h, ann_75C_25h, ann_100C_5h, ann_100C_25h, ann_125C_5h, ann_125C_25h, ann_150C_5h, and ann_150C_25h. The legend indicates two data series: Statistical uncertainty (black circles with error bars) and Systematic uncertainty (R16/R24) (pink squares).

Annealing Phase	Statistical uncertainty (Mean)	Statistical uncertainty (Min-Max)	Systematic uncertainty (R16/R24)
bef_ann	~6.8	~6.5 - 7.0	-
ann_75C_5h	-	-	-
ann_75C_25h	-	-	~2.0
ann_100C_5h	-	-	~2.2
ann_100C_25h	~1.8	~1.7 - 1.9	-
ann_125C_5h	~2.1	~1.9 - 2.3	-
ann_125C_25h	~1.8	~1.6 - 2.0	-
ann_150C_5h	-	-	-
ann_150C_25h	-	-	~3.0

Figure 10 is a plot showing the number of iterations required for convergence for different annealing schedules. The y-axis is labeled 'n' and ranges from 0 to 7. The x-axis lists various annealing schedules: 'bef_ann', 'ann_75C_5h', 'ann_75C_25h', 'ann_100C_5h', 'ann_100C_25h', 'ann_125C_5h', 'ann_125C_25h', 'ann_150C_5h', and 'annealing phase'. For each schedule, a black vertical line with error bars represents 'Statistical uncertainty' and a pink vertical line with error bars represents 'Systematic uncertainty (R16/R24)'. The 'bef_ann' schedule shows the highest number of iterations, around 6.5, while the 'annealing phase' schedule shows zero iterations.

Figure 10 is a plot showing the evolution of the effective number of clusters, N_{eff} , as a function of the annealing phase. The y-axis represents N_{eff} , ranging from 2.0 to 2.9. The x-axis shows the annealing phase with categories: bef_ann, ann_75C_5h, ann_75C_25h, ann_100C_5h, ann_100C_25h, ann_125C_5h, ann_125C_25h, ann_150C_5h, and ann_150C_25h. For each phase, a vertical line with error bars indicates the range of N_{eff} values. The legend indicates that the black line represents 'Statistical uncertainty' and the pink line represents 'Systematic uncertainty (R16/R24)'. The N_{eff} values generally decrease as the annealing phase progresses, starting around 2.65 for 'bef_ann' and ending around 2.15 for 'ann_150C_25h'.
